

## PLEDGE OF PROFESSIONALISM

As a student of pharmacy, I believe there is a need to build and reinforce a professional identity founded on integrity, ethical behavior, and honor.

This development, a vital process in my education, will help ensure that I am true to the professional relationship I establish between myself and society as I become a member of the pharmacy community. Integrity must be an essential part of my everyday life and I must practice pharmacy with honesty and commitment to service.

To accomplish this goal of professional development, I as a student of pharmacy should:

- **Develop** a sense of loyalty and duty to the profession of pharmacy by being a builder of community, one able and willing to contribute to the well-being of others and one who enthusiastically accepts the responsibility and accountability for membership in the profession.
- **Foster** professional competency through life-long learning. I must strive for high ideals, teamwork, and unity within the profession in order to provide optimal patient care.
- **Support** my colleagues by actively encouraging personal commitment to the Oath of a Pharmacist and the Code of Ethics as set forth by the profession.
- **Incorporate** into my life and practice, dedication to excellence. This will require an ongoing reassessment of personal and professional values.
- **Maintain** the highest ideals and professional attributes to ensure and facilitate the covenantal relationship required of the pharmaceutical care.

The profession of Pharmacy is one that demands adherence to a set of rigid ethical standards. These high ideals are necessary to ensure the quality of care extended to the patients I serve. As a student of pharmacy, I believe this does not start with graduation; rather, it begins with my membership in this professional college community.

Therefore I must strive to uphold these standards as I advance toward full membership in the profession of pharmacy.

"I pledge"
